

CPU Guru LLC

SBA-Certified Service-Disabled Veteran-Owned Small Business (SDVOSB)

UEI: ZJHPLSKSMA57 **CAGE:** 125J7 **Delaware LLC** **SAM Registration:** Active through July 2026

Principal: Doug White U.S. Navy Veteran – Nuclear Reactor Operator / Electronics Technician Phone: 302-644-2721 | Email: dw@cpu-guru.com Website: <https://cpu-guru.com>

Company Overview CPU Guru LLC was founded by Doug White, a disabled U.S. Navy Veteran with 27+ years of experience leading secure research computing initiatives at the University of Delaware College of Earth, Ocean, & Environment (retired November 2024).

We specialize in breaking down information silos to create secure, one-stop data platforms and high-reliability computing environments for the research community. Drawing on extensive oceanographic research systems expertise and current Space Operations coursework at Embry-Riddle Aeronautical University, we deliver practical, mission-focused solutions that support scientific discovery without adding operational burden.

Core Capabilities

- **AI R&D for Secure Research Computing** Exploring AI technologies to enhance data platforms, workflows, and secure research infrastructure for federal science and mission-critical systems.
- **Grant IT Sections & Post-Award Guidance** Clear, compelling IT sections for NSF, NOAA, ONR, and other federal proposals, plus advisory support for post-award infrastructure setup.
- **Research Vessel IT & Scheduling Systems** Specialized support for research vessel operations, data acquisition systems, and international scheduling platforms (long-time maintainer of researchvessels.org).
- **Secure Research Data Systems** Design and support for secure data repositories and high-reliability computing environments for scientific research and federal programs.

Selected Past Performance (as PI or Co-PI at University of Delaware)

- ONR N00014-19-1-2448 – \$1.15M – Oceanographic research computing infrastructure
- ONR N00014-23-1-2154 – \$218K – Completed November 9, 2024

- NSF 0634738 – \$375K – Global ocean observing systems
- NSF 0952114 – \$333K – Research data management platforms
- NSF Subaward URI 0004450/081814 – \$526K – Major ocean data infrastructure project

Key Differentiators

- Deep domain knowledge in secure research computing and multi-disciplinary data integration
- Proven ability to consolidate disparate systems into coherent, user-friendly platforms
- Veteran-owned and service-disabled perspective focused on honorable, mission-driven work
- Flexible, low-overhead SDVOSB structure ideal for targeted federal and research support

NAICS Codes (Primary)

- 541715 – Research and Development in the Physical, Engineering, and Life Sciences
- 541511 – Custom Computer Programming Services
- 541512 – Computer Systems Design Services
- 541519 – Other Computer Related Services
- 541611 – Administrative Management and General Management Consulting Services
- 611420 – Computer Training

Why Partner with CPU Guru LLC? We bring the same disciplined, problem-solving approach developed in Navy nuclear operations and 27 years of grant-funded research computing to every engagement. Our goal is to deliver real value through practical, secure solutions while respecting your timelines and budget constraints.
